

Landscape and Agriculture

Jan Diek van Mansvelt

Introduction

The concept of landscape

The agro-landscape

Soil fertility

Crop rotation

Animal Husbandry

Mixed farming

The Landscape-management

Species and habitat conservation

Landscape organisation's concerns

Individual preferences

Dualism separates –

the public alienated – a social disconnection

Holism integrates –

the public reconnected – a social renovation

**Agro Landscape management - in
the framework of global resources**

Thank you Mr Chairman
